

### Executive Vice President, Eco Sensors China and Hong Kong Visit 2007 (Mainland China, May 2007)

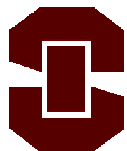

Date: 14 -18 May 2007

Venue: Guangdong, China and Hong Kong

As a Sole agent of Eco Sensors, US in China, Hong Kong and Macau, Science Laboratories Limited is pleased to welcome Mr. Ed Tomingas of the new Executive Vice President, Eco Sensors in China and Hong Kong business visit. Eco Sensors is an energetic and professional ozone monitor manufacturer including research, production and sales. We have been cooperated with Eco Sensors nearly one decade. In the past decade, we succeeded to promote the important ozone products, such as portable ozone detector model A-21ZX, fixed ozone monitor model C-30ZX and OS-3 in different markets in Hong Kong. Monitoring in Indoor Air Quality, HVAC and Ozone Generator Monitoring are using Eco Sensors products long time. In the 21<sup>st</sup> Century, we are happy to keep cooperating with Eco Sensors to explore the huge potential China market and carry up the business opportunity.

Mr. Tomingas and Mr. Tony Leung, VP of Science Laboratories visited ozone research team, which is held by Professor Chan, Department of Applied Biology and Chemical Technology in Hong Kong Polytechnic University. Mr. Tomingas is very happy to listen research result by Professor Chan. The research team also demonstrated how to use Eco Sensors ozone monitor model A-21ZX to check ozone.
