

### Teledyne ISCO Environmental Monitoring Equipment Technical Symposium

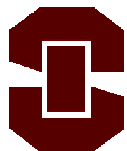

Date: March 29- 31, 2006

Venue: Beijing

Teledyne ISCO has supplied Model 6712 portable wastewater samplers to 66 Environment EPT for 24 provinces all over China in 2006. These instruments will collect the wastewater before entering treatment plants; water comes out from the plants and also water from streams and rivers, for water quality analysis. Being one of the Teledyne ISCO distributors, we are pleased to participate in this event, and assist in training of other distributors:

Mr. Michael Kilday, of Teledyne ISCO Global Sales Director presented a welcome speech.

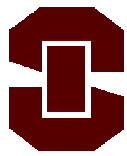

There are over 100 representatives from EPA of all provinces attending this symposium. They provided precious comments and exchanged technical information on Teledyne ISCO samplers with Product Manager.

Mr. Kaushal Trivedi, Product Manager of Teledyne ISCO lectured Automatic Sampling and Water Flow Meter Technology.

Mr. Tony Leung of VP of Science was explaining the features of the samplers
